## Customer Reviews

Giving this 5 stars because that's what it deserves despite the 1 star review someone else gave because of an issue with the shipping/packaging which has nothing to do with the book itself and also I didn't realize if a book was a little bent that it somehow becomes completely unreadable. Seriously though, this series continues to be fantastic and Remender is a story telling god. Don't listen to idiots who don't understand product reviews.

Outstanding addition to a great series.

The Anarchist League of Scientists are comin at cha & wow is it exciting! Everyone on this series is killin it & Vol 6 will blow your mind! The whole series is AWESOME: "inspiring an overwhelming feeling of reverence, admiration." I think that says it all...yup:)

Black Science is an amazing series, and this is another great chapter. If you're not reading this do yourself a favor and pick it up from the beginning.
