Fashion Drawing In Vogue

Synopsis

"A tribute to the artists and the designers and a touch of nostalgia." The Guardian
The celebration of the art of looking good has always demanded talent, vision, and style, and the artists recruited to fill the pages of Vogue since 1909 when it was taken over by Condé Nast have possessed these qualities in abundance. Their brilliant drawings chronicle not only fashion but also, with wit and delicacy, the whole comedy of manners that is the international social round. William Packer, painter, writer, and art critic, collected the best drawings from over seventy years of Vogue for this classic volume, which features work by hundreds of artists, including Edouard Benito, René Bouché, Salvador Dalí, Georges Lepape, Harriet Meserole, Douglas Pollard, and John Ward. 90 color and 211 black-and-white illustrations --This text refers to an out of print or unavailable edition of this title.

I got this book used for my vanity room for looks the side writing is blush pink, and this is why I ordered this book was to add color as well.. The book has blush pink on the side and white on the top cover.. It's a Steffens picture from the original book showing.. Upsetting! The cover looks like someone dropped coffee on it, it has a big stain.

I collection fashion illustration books and sadly wasn't too impressed with the collection of photos in this one.

I am very happy with this purchase... .. This one is a keeper and I will refer to it often.... Large oversized pages....you won't be disappointed!

I love this book!

This beautiful book was purchased for my grandmother for Christmas and was her favorite gift! It's big and heavy for a paper back so it makes a great coffee table book. My grandmother takes art classes and has always loved fashion, so this was a perfect book for her combination of interests.

My daughter is a designer and just loved this book. It was a gift for her for Christmas. A big hit! Arrived in very well packaged container, just as stated by seller it had just a small bit of wear. Makes it even more charming

I purchased this book in the '80s, loved it then & still love it. Wonderful selection of drawings, elegant & classic.

The one other customer review connected with this book is incorrect - this is not a step by step drawing book - it is a history of fashion drawing in Vogue Magazine.
