Customer Reviews

Extensive with many variations on the same pose. Good reference for drawing. I liked the collection.

good photography

I am glad for this book. As I work on my photography, this book has lots of tips and ideas. It is only pictures, but to each his/her own.

Let's just say I'm glad I didn't pay for it.

You can find much more info from just surfing the web don't bother unless you want the same pose just different models over and over

I think it depends on what results you're after, and this book shows a lot of unnatural poses. While some may find it useful, I did not. The one thing shown is the effect the background has against hair color.

The book is a bunch of pictures of stahed poses. There is nothing sensual about the poses or pictures. They definitely don't mert boudior stands.

I really love this product. It has plenty of poses to learn. I recommened this to every inspiring model. It has plenty of information and visuals.
