Alexander Henry's Travels And Adventures In The Years 1760-1776 (1809)

Synopsis

Alexander Henry 'The Elder' (1739 – 1824) was one of the leading pioneers of the British-Canadian fur trade following the British Conquest of New France; a partner in the North West Company, and a founding member and vice-chairman of the Beaver Club. In 1763-64, he lived and hunted with Wawatam of the Ojibwa, who had adopted him as a brother. "Blessed with as many lives as a cat," he recounted his time with the Ojibwa and subsequent explorations in his *Travels and Adventures in Canada and the Indian Territories between the years 1760 and 1776* (published New York, 1809). The book is considered an adventure classic and one of the best descriptions of Native Indian life at this time. Customer Reviews

This book deserves a wider audience. The editor questions his veracity. Who cares? The books merits are as much literary as they are historical. Henry's account of life among the Chippewa is utterly non-judgmental and existential. Reminiscent of Defoe in his compelling narrative, Henry captures a moment in American history when English, French and Native cultures intersected. This

world quickly disappeared and I am grateful for this vignette. Highly recommended.

This book provides a great perspective on historic events, in particular the methods of travel on the Great Lakes and living with the Indians in the 1760s. I found out many things about this "fur trader" era and the occupation by the English and French, forts, birch bark canoes, Indian uprisings, and medicinal treatments to name a few.

Good Book to settle back with on a rainy day!!!
